

Standard connection for synchronized use of the motors

Optional connections for individual control of the motors

Interface 10 motors
6-1622635 /R0 21/02/2019

PRODUCT DESCRIPTION

Multiplier of outputs for control units for roller shutters (for example BAX900 control unit)

ATTENTION! For the logic control refer to the combined control unit instructions.

TECHNICAL FEATURES (INTERFACE 10 MOTORS CONTROL UNIT)

Supply Voltage	230Vac
Frequency	50Hz
Power	11W (over the combined control unit power)
Operating temperature	-10°C...+55°C
Fuse (F1)	50mA FAST 5x20

OPERATION

Synchronized keyswitch: Enables all the tube motors to be operated simultaneously
Individual keyswitches: Enables individual operation of tube motors via their corresponding keyswitch.

DISPOSAL OF THE PRODUCT

This product is an integral part of the automation, and therefore, they must be disposed of together. As for the installation operations, at the end of the life of this product, the dismantling operations must be performed by qualified personnel. This product is made from different types of materials: some can be recycled, others must be disposed of. Please inform yourselves on the recycling or disposal systems provided for by the laws in force in your area, for this category of product.

CAUTION! – some parts of the product can contain polluting or dangerous substances which, if dispersed in the environment, may cause serious harm to the environment and human health.

As indicated by the symbol at the side, it is forbidden to throw this product into domestic refuse. Therefore, follow the “separated collection” instructions for disposal, according to the methods provided for by local regulations in force, or redeliver the product to the retailer at the moment of purchase of a new, equivalent product.

CAUTION! – the regulations in force at local level may envisage heavy sanctions in case of abusive disposal of this product.
